

Wild Strawberries - Stronger Crops

Biodiversity, epidemiology and climate insights for sustainable disease management

Udine, March 26th, 2026 – Sala Eventi 14.00 – 16.30

14.00 – 14.10

Opening remarks

Prof. Alessandra Di Francesco - University of Udine

14.10 – 14.40

WildCrop: Nature-based solutions to improved biocontrol and crop resistance

Prof. Johan A. Stenberg – Swedish University of Agricultural Sciences

14.40 – 15.10

Hotspots on the move: forecasting present and future grey mould resistance in wild strawberries

Dr. Nataliia Khomutovska – Swedish University of Agricultural Sciences

15.10 – 15.40

Epidemiological studies and sustainable approaches for the control of strawberries powdery mildew

Dr. Anna Aldrighetti – Sant'Orsola Trento

15.40 – 16.10

Strawberry fruit quality dissected: genetic and environmental drivers

Prof. Sonia Osorio – University of Malaga

16.10 – 16.30

Concluding remarks and networking

Prof. Alessandra Di Francesco - University of Udine
